American Safety Paper
Manufacturing Company of N. Y.
Capital $500,000.
A. NICHOLAS, President. Office 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture, and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Deeds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles, it is excellent, as it prevents moths, 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the ink and other chemicals inserted in this paper, makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Alpine Hair Balm,
OR
Restoring Gray Hair to its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain something that would be the exact remedy, and after seven years careful has perfected this Balm. It is soothing and cooling, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen by using this Balm for a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair cut. If you examine gray hair that has been cropped for a week, you will find towards the roots that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy that the whole hair may be a natural color. Each hair has a root, the skin and is of itself a hollow gray tube, through which there is a constant circulation of the pigment from the roots. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair; it is nothing else but more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet, myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

The Minnesota Election.

All the reports from Minnesota, for a number of days were to the effect that the Republicans had gained a complete victory in that Territory and that was the full belief in the Territory itself. Later accounts, however, indicate that in a few of the "out counties" a system of colonizing and fraud by the democrats has been resorted to, extensive enough perhaps to overbalance the Republican majorities in the greater number of counties. The despatches of yesterday, however, give Sibley, (dem.) but 123 majority,—and include a large number of Indian votes in the famous "Pembina" district, at that. Thus, if the bunkers have succeeded, it furnishes but another illustration of the *democratic* method of carrying elections, and of the great regard for "popular sovereignty" manifested by that party.

The bulk of the returns show, however, that the *people* of Minnesota are strong in the Republican faith, and that a substantial victory has been achieved, in spite of the most strenuous efforts of the government officials, backed by all the power and patronage of the General Government, and aided by the most shameful colonization and fraud, made from the Indian voting. Out of 29 counties first reported, the Republicans carried 16, by handsome majorities, and made large gains in nearly every one of the 28, over the election for constitutional delegates. An extra from Stillwater, in Washington county is filled with news of rejoicing over a noble victory for freedom in that and other counties. In Washington county the former democratic majority was overthrown, and the Republicans succeeded by an average majority of over 200, although the democrats colonized upwards of 70 voters. The town of Stillwater gave 60 Republican majority. Washington county is represented as the "stronghold of democracy," and the Messenger in speaking of the result there says:

The Republicans of old Washington have crowned themselves with glory. The money which flowed from the democratic candidates, like water proved unavailing, and the villainous lies circulated on the eve of election recoiled upon their authors with the fury of a tornado. The Gibraltar is taken.

And so in most of the other principal counties.

The Legislature, if it is carried against us, has been carried by the meagre majorities of 100 and 167 in the heavy counties of Fillmore and Houston, electing four Senators and nine representatives. From the uniform confident tone of private accounts, however, we are not yet without hope that the official figures may show the election of the Republican ticket throughout.

DENOMINATIONS OF OUR PAPER CURRENCY.—The bank paper circulation of the United States at the present time is estimated to be $170,000,000; of which seven millions are in bills of a less denomination than five dollars; forty millions of five dollars; thirteen millions of ten dollars; thirty-five millions of twenty dollars; thirty millions of fifty dollars; and forty-five millions of bills of the denominations of one hundred dollars and upwards.

PLENTY OF BUTTER AND CHEESE.—A correspondent of the New York Journal of Commerce at Palmyra, New York, writes that the quantity of these articles produced the present season in the great dairy counties of the State exceeds that of any previous year, by about one-third. He estimates that, in the counties referred to, there have been made at least 70,000 firkins more butter than ever before in one season.

THE STORM.—At latest accounts the steamer M. Sanford was in Portland waiting for the storm to abate. She will therefore lose a trip this week and will not arrive here until Saturday.

It is doubtful whether the Daniel Webster will leave Portland for Bangor to-night, as the storm has been severely felt in Portland harbor.

The Quebec Board of trade passed a resolution declaring the opinion that the banks of Canada should forthwith suspend specie payments in order to prevent the transfer of a large amount of their coin and bullion to the United States.

EMIGRATION TO EUROPE.—The clipper ship Dreadnought sailed from New York on Saturday, for Liverpool, with three hundred and forty passengers, the largest number ever taken in a sailing vessel from this country to Europe.

THE FREDERICTON BANK ROBBERY.—The Leader states that the persons who were arrested on charge of robbing the Fredericton Bank last summer, have been discharged on application of their counsel, in consequence of informalities in the proceedings against them. They have slipped through the meshes of the law.

AN ACCOUNT THREE MILES LONG.—The last quarterly returns or accounts of the New York city post office, which was received at the Department in this city in a day or two after the close of the quarter, if stretched out page by page continuously, would make a string of paper quite three miles long.—*Washington Star.*

LOCAL AND MAINE NEWS.

Supreme Judicial Court.

Present—CUTTING J.

October 28.

Melinda Bent, adm'x, vs. John Goddard. This case was committed to the jury this morning, who after being out all day, were not able to agree, and were allowed to separate. This is one of three cases that have occupied the Court a fortnight, when the juries have not been able to agree. It is said there are eleven obstinate men on each panel, who have not been able to agree with the twelfth anyhow.

Inhabitants of Lowell vs. Inhabitants of Enfield. Account for supplies furnished by Pl'ffs. to Caleb Kimball an ancient pauper, 88 years of age, who, the Pl'ffs. allege, belongs to the D'ts. The supplies were furnished between June 12, 1855 and August 28, 1856. Defts. deny that they had any interest in Mr. Kimball whatever; consequently decline the privilege the Pl'ffs. offer them of paying for the gentleman's support.

S. J. C.—Upon motion of Mr. Walker, Alfred S. Wright, having taken and subscribed to the oaths, was admitted to the bar.

Upon motion of Mr Ingersol, John W. Butterfield was admitted to the bar.

Rev. W. Newell, of Orrington, Scribe.

The Public ordination services were as follows:

Anthem.

Invocation and Reading Scriptures by Rev. E. Douglass of Oldtown.

Hymn.

Sermon by Rev. R. M. Sawyer of Winthrop, Text: Proverbs 24: 30 to 34. Spiritual slothfulness—the loss by its indulgence—the gain of industry.

Ordaining Prayer by Rev. John Maltby of Bangor.

Hymn.

Charge to the Pastor by Rev. Prof. Harris of Bangor.

Right hand of Fellowship by Rev. W. Newell of Orrington.

Address to the people, by Rev. Dr. Pond of Bangor.

Hymn.

Concluding Prayer by Mr. Benjamin Southworth.

Benediction.

We would call the attention of our readers to Mr. Scherb's lecture this evening. None who were charmed by his eloquence last summer will need any urging to go to night.

At the recent State Fair in this city the receipts were about $7000, which covered all expenses. At the Fair just closed in Boston, the receipts were but $6000, while the expenses were between $10,000 and $12,000.

LAKE ONTARIO FLOUR.—We call attention to the advertisement of Mr. Josiah Towle in another column. He is now manufacturing flour in one of the best wheat growing regions of the west, near the head of Lake Ontario—and receives it here every week by railroad, in four different qualities, which with the unbolted wheat meal and shorts, comprise the whole contents of the wheat. It is ground from the best of white winter wheat, and being always fresh from the mill, and transported as above, it is pretty certain to sustain no damage from heating. A sample bag which we have received and tried fully sustains the representations made by the advertiser, to which we refer our readers.

STEAMER SUNK. The steamer Gen. Neptune, belonging to the Penobscot River Navigation Co., sunk while lying at her wharf at Oldtown on Tuesday night. She was loaded with about fifteen tons of freight, consisting of flour, hardware and other merchandise, which was to have gone up river yesterday morning. She probably sprung aleak during the high wind of Tuesday night, and went down before the crew could save any amount of property.

THE PISCATAQUIS MUSICAL ASSOCIATION.—MR. EDITOR: The Piscataquis Musical Association convened at Dexter on the 21st., and continued in session four days. The class was small, but what it lacked in numbers, it made up in good deportment, precision and spirit,—Two concerts were given with success—musically speaking." Several opera choruses were rendered with promptness and in excellent style.

The interest and pleasure of the concerts were greatly enhanced by the clear, liquid voice, unaffected manner, and fine singing of Miss Houston of Boston.

Mr. Tracy of Bangor played several solos at the concert, and presided with ability at the piano forte during the Convention.

Mr. J. W. Adams of Boston, directed the Association with marked ability. His kind and courteous manner towards the class, made him many friends, and a particular favorite with all. He was unanimously elected director for the next annual meeting. M.

LEVEE POSTPONED. The Levee of the Free Will Baptist Society, which was to have been held this evening, was postponed until next Tuesday evening, on account of the severe storm.

BRIDGE CARRIED AWAY. Early Tuesday morning, the Railroad bridge which crosses the Kennebec at Skowhegan, was again swept away by the freshet. It was carried away last Spring, and was being rebuilt. We do not learn that the piers or abutments were injured, only that portion of the work which was resting upon the "false bridge" which had been thrown across, and which was dependent upon that for support. We hope the damage will not be so serious that they will be unable to complete the bridge this fall.

It is also stated that the foundation of Tuttle's new grist mill, at the same place, was giving way, and it was feared that one corner of it would slide out.

Governor Williams has appointed Winslow Bates, Esq., of Eastport, Public Administrator for Washington County.

MURDER NEAR ST. JOHN. A despatch to the police of Portland, states that a foul murder was committed within ten miles of St. John, N. B., on Saturday night last. Six persons, a man, his wife and four children, were the victims of this wholesale slaughter. The perpetrators of the deed were supposed to be on board the steamer Admiral, coming to Portland; and an unsuccessful search was made for them Tuesday on the arrival of that boat.

LARCENY. The Portland Advertiser says that a trunk belonging to a French gentleman, M. Toboohagin, boarding with a Mrs. Morgan, was broken open on Wednesday of last week, and a purse stolen from it containing four and a half English sovereigns and a diamond pin. T. L. Stiles, another boarder who left abruptly the same evening, was arrested in Salem on suspicion of being the thief.

William Dunbar of Belfast had his pocket picked last week in the streets of Portland.—He lost his wallet containing $116. This sum constituted nearly the whole of his summer's work on a fishing voyage.

THE CAUSES OF FAILURE. The reason physicians do not succeed in the treatment of Pulmonary diseases, is, that they do not understand them properly. The physician who is called now to a fever, next to a fit, and then to an accident, and so on, *day after to-day*, has no time to study each case separately. He can no more be expected to become proficient than an actor could perform in comedy, tragedy and farce. It is only the educated physician, who devotes himself to a particular *class* of diseases, that ever gains such eminence as Dr. Ayer has attained. The Doctor is stopping at the Hatch House for the treatment of all pulmonary diseases, and will remain for a few days only.

SAGADAHOC HOUSE.—This popular establishment, which has earned for itself so enviable a reputation, has recently exchanged landlords, and is now under the management of Alfred Carr, Esq., who has had experience in Hotel keeping at Kendall's Mills, and more recently at Bowdoinham, in the new Hotel at that place. Mr. C. is well spoken of and we have no doubt will make a popular landlord. — *Organ.*

Mr. Levi F. Watts, of Jonesboro', lost his pocket book, on the 23d, inst., in one of the saw mills in this place. It slipped from his pocket accidentally, as he thinks, and contained $100 in bank bills and valuable papers. — *Machias Union.*

BODY FOUND.—We learn by our correspondent, at No. 14, that the body of a female, in a very advanced state of decomposition, was found, on the 18th inst, by a hunter in the woods near the cross road leading from No. 14, to Dennysville. Some scraps of calico, two sets of knitting needles, and a rubber shoe, were found near by.—*Machias Union.*

FATAL ACCIDENT.—On Saturday afternoon as two men named John Tisdale and Wm. F. Woodman, were hoisting a barrel of turpentine to the fifth story of the store of A. G. Manning, in Boston, the tackle broke and both men were precipitated to the first floor of the building, falling through the scuttles. Tisdale was instantly killed, having struck upon his head. Woodman in falling struck the edge of one of the scuttles, and broke his arm and leg, besides receiving other injuries. He was instantly taken to the hospital, but it is doubtful if he survives. He was from Buxton, Maine.

Various Items.

An Ohio politician was boasting, in a public speech, that he could bring an argument to a p'int as quick as any other man. "You can bring a quart to a pint a good deal quicker," replied a Kentucky editor.

A Hoosier tells of a fight in which there was but one whole nose left in the crowd—and that belonged to the tea-kettle.

The Elmira Advertiser in speaking of the fashions, says: "Strip all the men and women in this village of their fine clothes, and what a change would be apparent."

"DIED POOR!"—As if anybody could die rich, and in that act of dying, did not lose the grasp upon titledeed and bond, and go away a pauper, out of time! No gold, no jewels, no lands or tenements. And yet men have been buried by charity's hand, who did die rich; died worth a thousand thoughts of beauty, a thousand pleasant memories, a thousand hopes restored.

One of the partners in a prominent Philadelphia firm that lately suspended, kept 2 carriages, 5 light riding wagons, 4 fast horses, 2 dogs, 2 coachmen and five servant girls.

A CARELESS HEN.—"John, did you find any eggs in the old hen's nest this morning?"—"No sir, if the old hen laid any, she mislaid them."

MR. MICAWBER'S ADVICE.—"My other piece of advice," Copperfield, "you know. Annual income—twenty pounds. Annual expenditure—nineteen, eleven six; result—happiness. Annual income—twenty pounds. Annual expenditure—twenty pounds, ought and six; result misery. The blossom is blighted; the leaf is withered; the god of day goes down upon the dreary scene, and, in short, you are forever floored."

"Are those bells ringing for fire?" inquired Simon of Tiberius. "No indeed" answered Tibe; "they have got plenty of fire, and the bells are now ringing for water."

ENCOURAGING.—A few days since a dunner called on a young gentleman and presented him a bill, when he was somewhat taken aback by the gent taking him aside and blandly saying:

"My dear sir, call next Thursday and I'll tell you when to call again."

RATHER A GOOD ONE. The Providence Transcript says:—"A gentleman coming to Providence in the cars a few days ago offered to the conductor in payment for his fare a Providence bill. It was refused, and the laconic reason given, "We don't take Rhode Island money." The passenger then produced a $20 gold piece, and the conductor began to make the change in bills. 'No,' said the customer, 'I will take coin in return, if you please, and nothing else.' But as the pocket of the official was short of the requisite sum in change he left, intimating he would call again. When the cars reached the city, the passenger was then informed that he might pay his fare with the Rhode Island bill. 'No, sir,' said the gentleman; 'I offered you current money twice for my fare—now you may get your fare if you can,' and walked off."

COUNTERFEITERS ARRESTED. Edward Price, Jacob Stanton, and George R. Cowee, were arrested in Boston on Tuesday last, charged with passing counterfeit money, a portion of it being a part of the bank notes stolen from the New England Bank Note Company in unsigned sheets, some time since.

HON. HANNIBAL HAMLIN, of Hampden, addressed a large and enthusiastic Banks meeting in Charlestown on Tuesday evening. He was received with great applause and listened to with marked attention.

JOHN MITCHELL SKETCHED BY BROWNLOW.—The great Slievegammon patriot, who ran away from Botany Bay—violating his parole of honor—to indulge his ardent longings for a plantation well stocked with slaves, at the South, gets kicked and cuffed on all sides by his new allies. Parson Brownlow—who has not yet started on his "missionary" tour—thus sketches the great champion of Irish freedom:

"We have no quarrel with any gentleman who is fond of John Mitchell, or who admires any traits of character he may possess. We are in a free country, and have a perfect right to select our own associates. We want nothing to do with Mitchell—we have no respect for him—and we certainly have no *fear of him*. His swaggering up and down the street—dashing from one side to the other, with an air of triumph, after his *cowardly* assault upon Fleming, only afforded us confirmation of what we had previously settled down upon as true—namely, the blood of scoundrels had coursed through his veins, and the veins of his ancestors, since the flood, annually becoming more corrupt as it approached the nineteenth century. And if God, in the lawful exercise of his prerogative, hath deemed it proper to *impress* upon our face the *countenance* he has given to John Mitchell, we should have long since have joined our fortunes to those of an 'Algerine bandit,' as the only way of answering the end of our creation!"

California in Slices.

The following laughable burlesque,—which however, contains several grains of solemn truth—is copied by the Union Advocate from the Amador (Cal.) Sentinel. It contains fun enough to neutralize a considerable quantity of blues in these hard pressure times.

Murderer's Bar, Cal., Sep., 1850.

DEAR SIR,—Your epistle, making inquiries about this extra country of gold, and other things, came to hand, and I hasten to reply to all your inquiries, for the benefit of yourself and all others interested, and in order to answer all your queries, I will put them and the answers according to their order.

1st. What are the agricultural resources of the mountain districts?

Abundant, all the hills produce shrubs, some weeds, and lots of red earth.

2d. How are the seasons divided?

Nearly balanced—one half all day without a cloud, the other half all rain without sunshine.

3d. What are the natural products of the mountains?

Grizzleys, California lions, cayotes, rats, fleas, lice, red diggers, soap plant and some gold.

4th. What are the vegetable products of the same?

Pines, scrub oaks, creeks, bed rock, centipedes, tarantulas, rattle snakes and wild cats.

5th. What kind of society have you in the mines?

All sorts, except temperance societies.

6th. What class form the aristocracy?

Gamblers and Mexican women.

7th. What are the middling class?

Loafers.

8th. What the lower order?

The hard laborer.

9th. What are the state of morals in the mining districts?

No such State in California.

10th. How are the facilities for educational?

Splendid—boys at four learn to chew tobacco and smoke, at six drink whiskey and swear, at eight play at cards and deal monte, at ten take the highway, and at twelve and fourteen graduate from the limb of some tree with the elevated degree of H-A-L-T-E-R. Splendid facilities for early education in all the usual accomplishments of California.

11th. What are the opportunities for religious worship?

Good; to the best of my recollection I attended religious worship once in the mines. The meeting was held under a pine tree, and the preacher took for his text, "What came ye out for to see," and whilst repeating it, an old 49 miner, in hard luck, came by with a pack on his back, unshaved, and hard up. Again the preacher exclaimed, "what came ye out for to see?" "The gold, in course, you darned old skeesicks," said the old forty-niner. With that, the congregation, consisting of myself, two dogs and a root digger, "vamosed the ranch," and left the preacher alone in his glory.

12th. What are the prospects of females?

I know a young lady, who came here in '49, and she was married four times within the year; her first husband was shot for cheating at monte; the second killed in a row; the third hung for horse stealing, and the crowd are now going to hang the fourth; and six men are running to the house to engage the lady—(stop a moment) the fourth is now hanging, and the six men are fighting with bowie knives for the widow. Glorious country this, for women.

13th. What are the prospects for a man of family in the mines?

First rate prospect of having none on his hands in a short time.

14th. What kind of business pays well?

All kinds, if you can get the money; credit a man, and ten to one he licks you if you dun him. Good country for business.

15th. What branches of business are mostly followed?

Drinking whiskey and loafing.

16th. Are the people who have settled permanently—satisfied?

Perfectly satisfied, that if they were back where they came from, they never would be such fools as to leave again.

17th. How are the laws regarded and enforced?

According to circumstances. If the people want a show, they hang some poor devil on suspicion, for an example, and to demonstrate to all the world "and the rest of mankind," that all law emanates from the people. It is generally enforced with a rope over a limb.

18th. Is a man generally safe traveling along through this country?

Yes, if he does not meet with men with no other visible means of support, than a bowie knife and revolver.

19th. How is the gold generally found?

Either in the earth or men's pockets.

20th. Is it very abundant?

Just as it happens, in both cases.

21st. Can the mines ever be exhausted?

Can't say—the mines have exhausted a great many men.

22d. How are the streams worked?

By companies, who first dam the rivers and then the country.

23d. What is gold bearing quartz—and how is gold obtained from it?

Quartz is a white "borriferous" rock, running in ledges as hard as the conscience of old Sweeps, and the gold as hard to extract as money from the pocket of old Jenkins.

24th. Of what people does the population consist?

A "right smart sprinkle" from all countries, besides Yankees and Spanish cattle.

25th. Which are considered the best mining localities in the mines?

"Murderer's Bar," "Mad Canon," "Hard Scrabble," "Hangtown," "Poor Man's Creek," "Whiskey Diggings," "Hit or Miss," "Devil's Glen," and "Hell's Own."

26th. How is the Sabbath observed?

No such observations ever taken in the State.

27th. Do the miners ever become rich?

[illegible] "bread."

28th. What kind of property had an emigrant better bring with him to California?

Gold and silver by all means, and the more the better.

Yours &c, O——.

Sealed proposals will also be received for furnishing Fifteen Cords of green hemlock wood, with the bark on,—all of said wood, both hard and hemlock, to be piled in the Court House yard, and then surveyed by some competent surveyor—the whole to be piled and ready for survey by April first, next; after which it is all to be sawed and split to the acceptance of the said Commissioners and then tiered up to dry, and afterwards piled in under cover, the hard wood in the sheds in the rear of the Court House and the hemlock in the place designated by the Jailor—the piling to be completed by the first of July next. Two-thirds payment to be made when the wood is surveyed, the balance when the work is completed. Satisfactory assurances will be required for the faithful performance of the contract. Said proposals to be handed in on or before WEDNESDAY, the ninth day of December, 1857. The Commissioners will not be bound to consider any proposal unless it be guaranteed by some responsible person, and they reserve the right to reject all proposals, if in their opinion they are unreasonable.

FLOUR, Wheat Meal & Shorts

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Rail road, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal, in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels; as is the case with nearly all the wheat manufactured in the large establishments for the large markets. Dealers can be accommodated with a weekly supply on favorable terms.

Samples may be seen at the Store of JOHN McLAUGHLIN, No. 40 West Market place, where it is kept for sale.

ARRIVAL OF THE

PERSIA,

AT NEW YORK.

NEW YORK, Oct. 28.

The Persia arrived to-day.

London, 17th. The money market is without change. Consols 88¾ a 87⅞.

Bullion in the Bank of England decreased £653,000.

Liverpool Markets.

Flour steady, but little inquiry. Red wheat slightly advanced. Corn firm, with slight advance on all qualities.

Provisions unchanged. Sugar 2s to 3s lower, and holders pressing sales. Coffee lower and dull.

Advices by the India mail are cheering, but add no important news.

The King of Prussia remains in a critical condition.

There was a fearful financial panic at Vienna.

The Banks of Holland and Belgium had advanced their rates of discount.

There is no political news worth telegraphing.

The Persia brings one million dollars specie.

The Persia passed the steamship Canada on the 17th, bound into Liverpool.

The Moniteur gives a corrected copy of the contents of a paper alleged to have been found in a bottle picked up on the strand at Melon on the 14th of September, as follows: "Steamship Pacific, Eldridge commander, Smith passenger. Steamship Pacific run between two icebergs—all hands lost—on the 1st of April, 1856. Just going down, 2 P. M." The word April is written over a word effaced, for the author of the note had first commenced with a capital M, as if about to write March.

The Paris correspondent of the Times says the health of M. De Rayneval is so delicate that it will be impossible for him to proceed to St. Petersburg before next summer. It has supposed that his destination will be changed, and that a military man will be sent as French Embassador to the Russian Court.

It is said that as soon as the question of the Principalities is disposed of, that of the Suez Canal will be again officially presented to the Ottoman Porte.

The statement in regard to the extensive nature of the fortifications which Russia is constructing at the entrance of the Sea of Azov are confirmed.

A letter in the Presse of Vienna, says it is perfectly true that the Russian Government has set apart 6,000,000 roubles for the re-construction of Sebastopol, and that although the treaty of Paris forbids the building of fortifications, it is supposed it may be easily evaded.

The annual meeting of the United Kingdom Temperance Alliance has been held in Manchester, and proceedings were generally encouraging to the cause of prohibition. Mr. Neal Dow and Brother James Caughey of America took part in the meeting; and to the former the Alliance presented a farewell address on his intended return to America.

Dates from Buenos Ayres, to Sept. 1st, Montevideo, 4th, and Rio Janeiro, 15th, had reached England.

At Buenos Ayres business was dull, freights scarce, and the money market tending downward.

At Rio freights were improving, owing to the animation in the Coffee market. Prices of coffee were a trifle lower. Sterling exchange flat at 27½.

At Pernambuco sugar was cheaper. Freights rising.

Calcutta, Sept. 5th. The ship Brothers, for Boston, in dropping down to Cooly Bazaar, got athwart the hawser of the Colliance, and received so much injury as to be obliged to unload and go into dock to be re-metaled.

Minnesota Election.

CHICAGO October 28.

The election returns received from Minnesota are contradictory. Information received this morning says that Ramsey, Republican, has been elected by a majority of 12. In the Legislature the Democratic majority in the House is 8, and in the Senate 5.

From Kansas.

ST. LOUIS, October 28.

At a Democratic meeting, held at Lecompton, Kansas T., on the 20th, resolutions were adopted strongly condemnatory of the action of Messrs. Walker and Stanton, respecting the returns from Oxford precinct, Johnson county. The course of the Governor and Secretary was characterised as high handed and illegal, and a usurpation of power belonging only to the Legislature.

From Washington.

WASHINGTON, Oct. 28.

The Commissioner of Patents has tendered to Mr. Robert Fortune, of England, the agency for the introduction and cultivation of the tea plant and other productions of China, in this country. The selection of this gentleman is owing to his experience in such matters.

Wm. Flinn has been appointed by the President Assistant Secretary to sign land warrants in the General Land Office.

The notes of the Philadelphia and New York city banks are received as currency by the banks of this District.

An Affray in the Cars.

PHILADELPHIA, Oct. 28.

An affray occurred yesterday upon the cars near Chambersburg, between Mr. McKibbon, member of Congress from California, and Isaac Craig, his brother-in-law. The latter had incurred the enmity of his whole family, by the seduction of his wife's sister, a deaf and dumb girl, several years since. The parties met accidentally for the first time since the occurrence. Pistols were used, and Craig was wounded, but not seriously. Mr. McKibbon is the son-in-law of the naval officer of this port.

CASE OF ASTHMA.

The following letter from Hon. Myron Lawrence, of Belchertown, is valuable testimony in favor of the Oxygenated Bitters:

Belchertown, March 20.

Dr. Green—I take great pleasure in informing you of the results of the Oxygenated Bitters you had the kindness to send me. For some twenty years I have suffered with Humoral Asthma. I was compelled to sit up one-third of the nights without going to bed at all, and the rest of the time my sleep was interrupted by violent fits of coughing and great difficulty in breathing. In all my attendance upon our courts, I never went to bed in Northampton, in twenty years, but twice, and then was compelled to get up. Now I lie in bed without difficulty and sleep profoundly. I took your medicine according to directions. The violent symptoms immediately abated, and perseverance in the use of the remedy has removed all its troublesome consequences. The value of such a remedy is incalculable. Respectfully yours,

SETH W. FOWLE & CO., 138 Washington-st., Boston, *Proprietors*. Sold by their agents everywhere.

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to those diseases, under the most eminent German physicians in Philadelphia, and his thorough knowledge of the science of Auscultation and Percussion, enables him to detect the slightest deviation in those organs from their healthy condition.

His experience and success in the treatment of Lung difficulties especially, give great confidence in his ability to give most entire satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

GRINDLE'S

ANCIENT AND CELEBRATED

JAPANESE LIFE PILLS,

NATURE'S OWN REMEDY.

A positive Cure for Liver Complaint, and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying drugs made into pills and liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have studied hard to find a cathartic which, while it purged, would *throw out disease*, and not *mere secretions alone*; would *renovate and strengthen*, and not *debilitate and weaken the system.*

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not *mere secretions*, thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but *positively cure* every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the Pills in that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing. The number of these PILLS being used by females alone for their various complaints, constitutes in itself an immense trade.—They are not the "*female pills*" so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on diseases.

The PILLS are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

J. S. INGRAHAM and B. F. BRADBURY & CO., agents for Bangor.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only line giving entire Through Tickets, including meals, on the Isthmus.*

Transit made in four hours, entirely by daylight, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer, will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey are the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For Sale, fifty swarms of Bees, with the new hives.

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

(Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 28 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Ability, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in this line for the last 30 years is now for the first time offered in this country to the afflicted, with the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to treat and to cure this awful disease. A single trial will convince the most sceptical. Let a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expense incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail*, free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 159 Grand-St., New-York, Sole Agents for the United States and Canada.

SUGAR COATED PILLS

Prepared and put up by the

New York College of Health.

The most celebrated Medicine in the World,

Recommended by the principal Physicians in all our Cities, and by all who become acquainted with their merits throughout the world.

There are living witnesses, in almost every town, village and hamlet throughout the country, who unhesitatingly say, DR. SMITH'S SUGAR COATED PILLS have saved my life.

Most of the Hospitals in New York have given these Pills a preference over more than twenty other kinds that have been tested, and many eminent Physicians in the United States use them in their practice.

DR. J. M. STURTEVANT, of Lowville, N. Y., a practical physician, says: "I consider the Sugar Coated Improved Indian Vegetable Pills as an excellent medicine, and use them in my practice."

Dr. McVICAR, of Boonville, Oneida Co., N. Y., says, "Say to your Agents, I consider them an excellent Pill, and use them in my practice."

If the Blood becomes impure, it is traced to stoppage of the natural drains of the system, viz of the bowels—the lungs, kidneys, and skin. The blood and intestines must relieve themselves of all their worn out particles and poisonous humors, which must go through the channels that nature has designed.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

THE GREAT

Remedy for Pulmonary Consumption.

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It is the greatest salve of any medicine in the world for *Pulmonary Complaints*, from Maine to the most remote dwellings of Oregon, or wherever Consumption is known, it finds its way carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it does cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. The great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs, and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease; and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed, which enlarges and does its work of death unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to its law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices.—One box $3,00; three boxes, ordered at one time, $8,00; half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

No. 8 *Broad, near State Street,* Boston.

Supply the best Teas and pure articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, All Spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cassia, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the above articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully and bear our name and label, "TREMONT MILLS, E. E. DYER & CO."

To give purchasers some idea of our sales, we annex the following scale of prices, viz:

Old Souchong Tea,	[illegible]	1 lb Mocha Coffee,	[illegible]
Oolong Tea,	[illegible]	1 lb Java Coffee,	[illegible]
Y. Hyson Tea,	[illegible]	1 lb good Coffee,	[illegible]

The Spices are put up in ¼ and ½ lb tin cans expressly for family use and are warranted to be positively a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, an article which is highly esteemed, and has given the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages, having our trade mark, and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman Grinding Coffee*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are now well known and highly esteemed by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c.

Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
